

Putting Chicago To Work

Published By The Kindness Campaign

The Kindness Campaign dismantles systemic, structural racism to achieve health equity, workforce equity, education equity and public equity. We envision a strong, thriving community without institutional barriers that stands in the way of equitable participation.

Workforce Equity is our commitment to a labor market in which bias income gaps are eliminated, all jobs are good careers and everyone who wants to work has access to self-supporting and family supporting employment.

Health Equity is our commitment to reduce and eliminate disparities in health and in its determinants, including social determinants.

Education Equity is our commitment to practices, policies and procedures at the school and district level to achieves academic fairness, inclusion and matriculation for every student. This provides students the resources, teachers, interventions and supports they need to be successful.

Public Equity our commitment to fairness and justice in the formulation of public policy, distribution of public services, implementation of public policy and management of all institutions serving the public directly or by contract.
